Welcome to Te Pūkenga

NMIT is part of Te Pūkenga - New Zealand Institute of Skills and Technology, together with all the other polytechnics in New Zealand. From 2023, all NMIT learners will be enrolled with Te Pūkenga, instead of NMIT. Right now, our people will continue to support our learners. They will still be enrolled in the same qualification and will continue to learn in the same way, in the same place, with the same people. Being a part of Te Pūkenga means we will be more connected to the other organisations delivering vocational and applied education in Aotearoa New Zealand and we will work with them to share skills and knowledge to better help you succeed. We are excited to be part of Te Pūkenga which has been set up as part of the Government's Reform of Vocational Learning. Te Pūkenga is creating a network of online, on-campus and on-job learning to give learners more flexibility in what, where and how they learn.

*Conditions apply.

Please note that our programmes of study are currently under review as part of the reform of vocational education training. The objective is to provide one programme for Te Pūkenga that is portable, consistent, and more closely aligned with the needs of industry. As the review is ongoing, this document is correct at the time of publishing but the courses outlined may change over time.
